

IT CAN BE TOUGH WHEN YOUR PET LOSES THEIR EYE....

OPTIVET
REFERRALS

AT OPTIVET
WE UNDERSTAND

**IT IS NORMAL TO FEEL UPSET, OVERWHELMED,
GUILTY OR JOY.**

The bond between you and your pet is strong, and it is common for guardians to feel like they have let their pet down when they have to make the difficult choice to enucleate the eye. Please be reassured, that you are doing the kind thing and making a brave decision for them.

Our animals are extremely resilient, and will utilise their strong sense of hearing and smell to navigate the world! They do not use their eyes as we do and adapt brilliantly with no sight!

YOU DO NOT NEED TO GO THROUGH THIS ALONE

OPTIVET
REFERRALS

WE ARE HERE TO LISTEN

Many members of our staff have partially sighted, or completely blind pets and are happy to share their stories. This is Maggie, who lost both her eyes at a young age. This doesn't stop her playing with her furry siblings or enjoying long walks along the beach!

We can offer a listening ear here at Optivet.
Please contact our Emotional Support Advisor Sam if you would like any additional support during this difficult time.
